

## New Jersey Boater's Pumpout Guide

### Acknowledgments

The project was a cooperative effort of the United States Fish & Wildlife Service, the Marine Trades Association of New Jersey, New Jersey Department of Environmental Protection Division of Fish and Wildlife, New Jersey Marine Sciences Consortium, New Jersey Sea Grant, New Jersey Department of Environmental Protection Division of Watershed Management, Ocean County Planning Board, Monmouth County Board of Health and the Grant F. Walton Center for Remote Sensing and Spatial Analysis at Rutgers, The State University of New Jersey.

### Disclaimers

Note - Marinas that are not participating in the Clean Vessel Act do not follow prescribed guidelines such as cost, location, hours and maintenance. Please call marinas to verify.

Note - Pumpouts may not be accessible to all boats due to restrictions caused by water depth, location of pumpout facility at the marina and clearance required to pass under bridges. If you are unsure whether or not you can safely access a pumpout facility please call the marina beforehand.

### No Discharge Areas

The following waterbodies have been declared No Discharge Areas by the U.S. EPA: Navesink River, Shrewsbury River, Shark River, Manasquan River, Barnegat Bay and Hudson River (pending).

Map composed at CRSSA by Paul Montesano, under the direction of Dr. Richard G. Lathrop.

### New Jersey's Pumpout Boats

All boats purchased through the NJ Clean Vessel Act Program.

**Monmouth County**

**Royal Flush** - Owned by the Monmouth County Board of Chosen Freeholders and operated by the Monmouth County Board of Health. The boat services the Navesink and Shrewsbury Rivers, as well as Sandy Hook Bay. The boat operates Thursdays through Sundays during the summer. For more information contact 732-890-6142.

**Ocean County**

Service is provided free of charge under a grant from the County of Ocean and the Ocean County Utilities Authority. The boats typically operate from Memorial Day Weekend through the end of September, from 10:00 A.M. until 6:00 P.M. All boats can be hailed on VHF channel 9. To obtain a brochure on the Ocean County Pumpout Boats, call the Ocean County Department of Planning at 732-929-2054. Specific pumpout boat information below:

**Circle of Life** - Owned and operated by the Borough of Seaside Park. The boat patrols central Barnegat Bay, with emphasis on the Tides Shoal area off of Island Beach State Park. The boat operates Fridays through Mondays. For further information, contact the Borough of Seaside Park at 732-793-5505.

**Wastewater** - Owned by the County of Ocean and operated by the Tuckerton Seaport. The boat patrols Little Egg Harbor Bay and Tuckerton Creek. The boat operates Thursdays through Mondays. For further information, contact the Tuckerton Seaport at 609-296-8868.

**Bay Saver** - Owned by the County of Ocean and operated by the Township of Brick. The boat is scheduled to commence operations in 2003 and service northern Barnegat Bay and the tidal portions of Kettle Creek and the Metedeconk River. Operation schedule is still to be determined but the boat is expected to operate Fridays through Mondays. For further information, contact Brick Township Public Information at 732-262-1000.

## 2003-04 edition

### Are You in Compliance?

Equipment on Boat:	Legal?	Restrictions and Comments:
Installed toilet without MSD	No	
Installed toilet with macerator	No	USCG regulations require that all installed toilets have an attached MSD. Macerator doesn't count as MSD.
Installed toilet with Type I MSD **	Yes (But not OK in No Discharge Areas)	OK on boats < 65'. Discharge is < 1000 per 100 milliliters of fecal coliform bacteria with no visibly identifiable floating solids.
Installed toilet with Type II MSD **	Yes (But not OK in No Discharge Areas)	OK on any size boat. Found on larger boats because of electricity and space requirements. Discharge is < 200 per 100 milliliters of fecal coliform bacteria with < 150 milligrams of suspended solids per liter.
Installed toilet with Type III MSD **	Yes	Keeps waste out of water by using a holding tank. Discharge at onshore pumpout facility or via "Y" valve while more than 3 miles offshore in the ocean.
Portable toilet	Legal on any boat.*	Doesn't fall under USCG regulations of MSD's.
No installed toilet	Yes	Remember No Discharge Area Rules.

Note: Some states have additional restrictions. For example, in Florida, houseboats may only have a Type III MSD or a permanent sewer line to shore. Check on your state's laws.

\*\* Must be USCG certified.

\* Not legal in the Province of Ontario
